

Royal Flush

A straight from a ten to an ace - all five cards of the same suit.

Straight Flush

Any straight with all five cards of the same suit.

Four of a Kind

Any four cards of the same rank. If two players share the same Four of a Kind, the fifth card will decide who wins the pot, the bigger card the better.

Full House

Any three cards of the same rank together with any two cards of the same rank. Our example shows "Aces full of Kings" and it is a bigger full house than "Kings full of Aces".

Flush

Any five cards of the same suit which are not consecutive. The highest card of the five makes out the rank of the flush. Our example shows an Ace-high flush.

Straight

Any five consecutive cards of different suits. The ace counts as either a high or a low card. Our example shows a Five-high straight, which is the lowest possible straight.

Three of a Kind

Any three cards of the same rank. Our example shows three of a kind in Aces with a King and a Queen as side cards, which is the best possible three of a kind.

Two-pair

Any two cards of the same rank together with another two cards of the same rank. Our example shows the best possible two-pair, Aces and Kings. The highest pair of the two makes out the rank of the two-pair.

One-pair

Any two cards of the same rank. Our example shows the best possible one-pair hand.

High-card

Any hand that does not make up any of the above mentioned hands. Our example shows the best possible High-card hand.
